March 6-8 2017

Invitation

The XVIIIth Netherlands Catalysis and Chemistry Conference will take place March 6-8, 2017 in Noordwijkerhout, The Netherlands.

NCCC combines a number of national symposia in the field of chemistry and catalysis. The Flanders-Belgium catalysis and chemistry community also contributes to this conference. NCCC-XVIII offers a unique, international forum to exchange innovative ideas between academic and industrial scientists in a broad area of catalysis and chemistry. .

Scientific Programme

The scientific program consists of 5 plenary and 8 keynote lectures, about 90 oral papers and 150 poster presentations. They are presented in four parallel sessions and two poster sessions. The oral and poster presentations will be selected by the topic chairs in consultation with the organizing committee, based on the one-page abstract submitted electronically at the conference website. The program will be available on the website (www.n3c.nl) in December 2016.

Topics

Renewables - Biomass, Hydrogen
Theory and Spectroscopy
Zeolites, Cages and MOFS
Fundamental Heterogeneous Catalysis
Applied Heterogeneous Catalysis
Homogeneous Catalysis
(Bio) Organic Synthesis, Catalytic Methods and Biocatalysis
Coordination Chemistry
Photo- & Electro-catalysis
Supramolecular Catalysis
Flow Chemistry

Plenary Speakers

Dr. H. Olivier-Bourbigou, IFP Energies nouvelles, France

Prof. dr. D. Hilvert, ETH Zurich, Switzerland

Prof. dr. F. Thibault-Starzyk, CNRS, France

Prof. dr. C.T. Campbell, U Washington, United States

Prof. dr. H. A. Gasteiger, TUM, Germany

Keynote Speakers

Prof. dr. J.N.H. Reek, HIMS, The Netherlands

Prof. dr. M. Rueping, RWTH Aachen U, Germany

Dr. K. Barta, U Groningen, The Netherlands

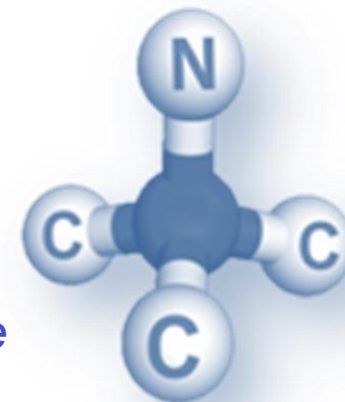

Prof. dr. P. Melchiorre, ICIQ, Spain

Prof. dr. J. Lacour, U Geneva, Switzerland

Prof. dr. P. Fornasiero, U Trieste, Italy

Prof. dr. M. Swart, ICREA Girona, Spain

Prof. dr. A.M. Beale, UCL, United Kingdom
