CASC on the cover of ChemPhysChem

A review paper on the electrocatalytic oxidation of carbon monoxide on stepped platinum electrodes by Gonzalo Garcia and Marc Koper appears on the cover of ChemPhysChem: <http://onlinelibrary.wiley.com/doi/10.1002/cphc.201100247/abstract>

How Pt(100) reduces nitrite to dinitrogen in JACS

A collaboration with the Electrochemistry Institute of the University of Alicante on the mechanism of nitrite reduction on Pt(100) in alkaline media has led to a publication in JACS: <http://pubs.acs.org/doi/pdf/10.1021/ja203234v>
