NPP Newsletter

AUTUMN 2012

Last activity...

It is already Autumn, and this NPP board is organizing their last few activities as board-members.

By the end of 2012 a new board will take our place. But before we say goodbye, we will still organize one more company visit to Avantium the 5th of November.

The details of the visit will come soon, so please pay attention to the email!

See you around!

Company Tour 2.0

September 2nd to 5th, NPP visited two companies in a row: Umicore (Olen, BE) and Sabic (Geleen, NL). PhD students from all over the Netherlands joined this event where they had the opportunity to meet two pioneer chemical companies and have an amazing experience meeting new peers!

Thank you all for your participation!

Shell Technology Center Amsterdam

Last May, NPP PhD students had the possibility to walk through the facilities and discuss with the employees in Shell.

Looking for NPP news? Or the pictures of that last activity?

NPP has started a LinkedIn group and a Flickr account. You can find us here:
